

Shiva Global Environmental Private Limited

<https://www.shivaglobalenviro.com/>

We are into Design, manufacturing and supplying of Water and Waste Water Management System such as Water Treatment Plant, Effluent Treatment Plant, Sewage Treatment Plant, Waste Water Recycling Systems based on Liquid Discharge Technology.

About Us

"**Shiva Global Environmental Pvt. Ltd**" is established in **2012** but our presence in the market is from the last 20 years with the name of mother entity M/S Hydro Treat Technologies was established in year 1994. Our High Quality Infrastructure is couple with High Quality Professions enables to give high quality services to our client. We are engaged in Manufacture, Design, Consultancy, Exporting, Supplying and Services of Water and Waste Water Management System including waste water management system, Sewage Treatment Plants, Effluent Treatment Plants, Waste Water Recycling Systems etc.

We also manufacture Industrial Sewage Treatment Plant. Our Professionals use High quality raw material with advance technologies under the industrial norms and standards and these Treatment Plants are Highly demanding in the market due to its low maintenance and and easy to use with good performance. At our end, we employ an integrated approach to be able to deliver cost-effective solutions for varied markets such as industrial, institutional, commercial & public water supplies, urban and rural. O & M and A.M.C. services that we undertake have enabled us to meet customer needs most efficiently. Pre-treatment, process water/liquid treatment, waste water treatment, water recycle and product recovery are done by utilizing various physicochemical processes. Techniques such as settling, clarification, filtration & disinfection and membrane & ion...
